Journal of Fluid Mechanics Volume 523 **25 January 2005**

J. T. Norman, H. V. Nayak & R. T. Bonnecaze	Migration of buoyant particles in low-Reynolds-number pressure-driven flows	1
A. Leboissetier, N. Okong'o & J. Bellan	Consistent large-eddy simulation of a temporal mixing layer laden with evaporating drops. Part 2. *A posteriori* modelling	37
T. Radko	What determines the thickness of layers in a thermohaline staircase?	79
A. Celani, M. Cencini, M. Vergassola, E. Villermaux & D. Vincenzi	Shear effects on passive scalar spectra	99
Yu. G. Verevochkin & S. A. Startsev	Effect of absorption of solar radiation by water of different optical types on convection and heat transfer just under the air–water interface: the case of zero wind speed	109
X. Wu	Mach wave radiation of nonlinearly evolving supersonic instability modes in shear layers	121
G. Boffetta, A. Celani, A. Mazzino, A. Puliafito & M. Vergassola	The viscoelastic Komogorov flow: eddy viscosity and linear stability	161
S. Baskar & P. Prasad	Propagation of curved shock fronts using shock ray theory and comparison with other theories	171
O. M. Faltinsen, O. F. Rognebakke & A. N. Timokha	Resonant three-dimensional nonlinear sloshing in a square-base basin. Part 2. Effect of higher modes	199
A. J. Cooper & N. Peake	Upstream-radiated rotor–stator interaction noise in mean swirling flow	219
A. Nikolaenko, E. Brown, D. Funfschilling & G. Ahlers	Heat transport by turbulent Rayleigh–Bénard convection in cylindrical cells with aspect ratio one and less	251
I. Eames, M. A. Gilbertson & M. Landeryou	The effect of an ambient flow on the spreading of a viscous gravity current	261
M. Alam, V. H. Arakeri, P. R. Nott, J. D. Goddard & H. J. Herrmann	Instability-induced ordering, universal unfolding and the role of gravity in granular Couette flow	277
D. Crowdy & J. Marshall	Analytical solutions for rotating vortex arrays involving multiple vortex patches	307
B. R. Noack, P. Papas & P. A. Monkewitz	The need for a pressure-term representation in empirical Galerkin models of incompressible shear flows	339
G. W. Wake, G. N. Ivey & J. Imberger	The temporal evolution of baroclinic basin-scale waves in a rotating circular basin	367
I. Sezai	Flow patterns in a fluid-saturated porous cube heated from below	393
BOOK REVIEW		
Bubbly Flows, edited by M. Sommerfeld		411
